The Workshop

International Workshop

Consumption and Well-being in the Aging Society
Advancing Research on Older Consumers

29 September – 1 October 2011

German Institute for Japanese Studies (DIJ) Tokyo, Japan
in collaboration with the
Center for Mature Consumer Studies (CMCS), Georgia State University

We gratefully acknowledge financial support from the Fritz Thyssen Foundation.
Aim of the workshop

- Bring together international experts studying older adults in various fields
  - to present their latest ideas and empirical research in order to help develop an agenda for future research on older consumers
- The presentations are intended to stimulate discussion of research topics, methods and ideas that could suggest new avenues for studying older adults as consumers from a cross-cultural perspective
- The workshop is also expected to facilitate future collaborative studies among participants
Foci of the workshop

“Business Implications of Demographic Change in Japan: Chances and Challenges for Human Resource and Marketing Management”

Florian Kohlbacher
Demographic Change in Japan

Book by Prof. Dr. Florian Coulmas, Director of the DIJ Tokyo:
“Population Decline and Ageing in Japan - The Social Consequences“
ISBN 9780415401258.

Coulmas, Florian; Conrad, Harald; Schad-Seifert, Annette; Vogt, Gabriele (ed.)
“The Demographic Challenge: A Handbook about Japan “
In the light of the global demographic shift, this book offers an excellent overview on the matter itself as well as a thorough insight on the opportunities and challenges, which come along with it. Kohlbacher and Herstatt gathered contributors of profound expertise from a wide range of areas. This volume is full of concrete examples, first-hand insights and practical advice. A great tool I would like to recommend to any marketing, R&D or product manager.
